EN - SAFETY INSTRUCTIONS

Thank you for purchasing this Philips product, we highly appreciate your choice for the Philips brand and wish you lots of pleasure using your product. This manual B contains definitions of all potentially applicable parameters & specifications with icons, as per International norms and safety standards. However not all of them may be applicable for the product you purchased - please refer to the icons in the Manual A, for the ones which are particularly applicable for this product.

The manufacturer advises the correct use of lighting fittings! Therefore always follow these instructions to ensure correct and safe installation and functioning of the fitting, and keep them for future reference. Always consult a professional in advance, for choosing the right fastener for a secure mounting of the product. Take into account the weight of the product and the material of the mounting surface. If in doubt, consult a qualified or licensed electrician or contact your retail outlet. Ensure the product is always installed according to relevant regulations. Certain regulations indicate that electrical products must be installed only by a licensed electrician (e.g. Part P for the UK, AS/NZS3000 IN for AUSTRALIA /NEW ZEALAND). Always switch off the power prior to installation, maintenance or repair activities. Observe the correct colour of the wiring before installation: blue (N), brown (L) and if protection class I, yellow/green (earth). Mount wall lights out of children's reach. If the product is mounted on a metallic surface, this surface must be bonded to the protective earth conductor or to the equipotential bonding conductor of the installation. Always tighten the terminal screws firmly, especially attachments for low voltage wiring (12 V) (if applicable). It is highly recommended to regularly check and re-tighten the terminal screws over time. Keep packaging materials out of children's reach. (e.g. plastic bags,...). Maintain interior lighting with a dry cloth duster, do not use abrasives or solvents. Avoid liquids on all electrical parts. Immediately replace a cracked or broken translucent cover and only use manufacturer approved parts. It is advised to only use "Philips"-branded bulbs.

Please inform yourself about the local waste disposal, separation and collection system for electrical and electronic products and packaging. Please act according to your local rules and do not dispose your old product and packaging with your normal household waste. The correct disposal of the packaging, your product and/or batteries will help prevent potential negative consequences for the environment and human health. Batteries should be disposed separately from the municipal waste stream via designated collection facilities. When disposing a product that contains non-user replaceable batteries, the non-user replaceable batteries shall be removed by a professional.

ATTENTION: Below you will find all the explanations with numeric reference to the icons respectively in front of these safety instructions: 01) The product should only be installed indoors. 02) The product is not suitable for installation in bathrooms, certainly not in the specified zone. 03) The product is not suitable for direct mounting on normally flammable surfaces. 04) The product is not suitable for covering with thermally insulating material. 05) The product is only suitable for mounting on the ceiling. 06) The product is only suitable for mounting on the wall. 07) The product is suitable for mounting on the wall or on the ceiling. 08) Always take into consideration the minimum distance, as indicated on the icon, between the lamp and the lighted object. 09) IPX1: The product is protected against dripping water. IPX3: The product may be exposed to raindrops (falling drops under a maximum angle of 60° to the vertical axis). IPX4: The product is splash-proof: It may be exposed to splashing water coming from any direction (360°). IPX5: The product is protected against water jets. IPX7: The product can be installed into the ground. IPX8: The product is protected against immersion up to the indicated depth. • IPX5: The product is dust protected. IP6X: The product is dust tight. 10) Immediately replace a cracked or broken safety glass and only use borosilicate parts of the same dimensions, with a minimum thickness of 3 mm. 11) Protection class I: the product or component has an earthing connection. The earth wire (yellow/green) has to be connected to the terminal marked with class I logo. 12) Protection class II: the product or component is provided with double or reinforced insulation. 13) Protection class III: the product or component is only suitable for extra low voltage supply (<50Va.c.; <120Vd.c.). 14) Strip the wire as indicated on the icon. 15) The earthing wire always has to be longer than the brown live (L) and blue neutral (N) wire. 16) The use of the supplied heat-resistant sleeving is required over the unstripped wire lengths. 17) The product is only suitable for wiring directly to the electrical mains supply. 18) In case of damage to the wire: • X-connection; Replace it by a wire of the same type. • Y-connection; Only to be replaced by the manufacturer, distributor or by an expert, to avoid risks. • Z-connection: The cord cannot be replaced, the luminaire must be destroyed. 19) MAX. ...W: only use lamps suitable for the product and keep within the maximum specified wattage. 20) The product is only suitable for reflector bulbs. 21) The product is only suitable for CFL-i or LED-bulbs (e.g. E14, E27, Gu10, Gx53, ...) 22) The product is not suitable for CFL-i or LED-bulbs (e.g. E14, E27, Gu10, Gx53, ...) 23) Only a bulb with a diameter of 60 mm can be used. A bulb with a 45 mm diameter must not be used for this product. 24) Only use a globe bulb that has the size of the indicated diameter. Never use a standard incandescent bulb. 25) The product is only suitable for candle shaped bulbs. 26) The product is only suitable for a bulb with built-in safety shield or for a low pressure bulb. An extra safety glass is not necessary. 27) Capsule and linear halogen bulbs may not be touched by bare hands. 28) The product is equipped with a fuse. If the product is out of order after bulb replacement, the internal fuse has to be replaced.This must be done by a qualified electrician if contact with internal wiring can be made. 29) The product is dimmable with the supplied dimmer or with a (not included) dimmer connected to the electrical installation of the home. For reference please visit "www.philips.com". Consult a qualified electrician for choosing the suitable dimmer type. 30) The product is not dimmable. 31) The product is dimmable with the supplied dimmer ONLY. Do not connect to an additional dimmer. 32) The dimmability features depend on the chosen lamp. More information on the dimmability features is available in the information pack provided with the bulb. 33) The product is working with a safety transformer. Replace a broken transformer only with a transformer with identical technical specifications. Consult a qualified electrician or your retail outlet. 34) Product for rough service. 35) Product with time and light setting options. Minimum and maximum are indicated on the icon. 36) The product can be mounted up to a maximum height of 6 m. 37) For reliable operation, you have to mount the product on the specified height as indicated on the icon. The maximum and minimum reach of the detector is also indicated. 38) The standard active range of vision of the detector covers the given degrees indicated on the icon. 39) This product should be mounted horizontally. For longer life, the bulb should not be at an angle greater than 4 degrees. 40) Ensure not to drill through electrical wires or any other obstruction in the wall or ceiling during installation! 41) If the product is mounted onto a ceiling-box or wall-box, it is obliged to cover the box with a lid first. (e.g. The Netherlands) 42) Electrical wiring may never be clamped or twisted between the product and the mounting surface! 43) Parts of this product may get hot. 44) This product is not suitable for children under Y years. 45) The product is only suitable for persons above Y years. 46) Mount the product out of arm reach (X1: for children, X2: for adults). 47) Product to be installed by two people. 48) To avoid corrosion, clean the luminaire a minimum of 2 times per year with a soft cloth and a neutral detergent.(4 times in coastal or industrial areas). 49) The product is only settable during installation by means of a tool. 50) Caution: Risk of electric shock! The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person. 51) Replaceable (LED only) light source by an end-user. 52) Replaceable light source by an end-user. 53) Replaceable (LED only) light source by a professional: The LED light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person. 54) Replaceable light source by a professional: The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person. 55) Non-replaceable light source: The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced. 56) Replaceable control gear by an end-user. 57) Replaceable control gear by a professional. 58) Non-replaceable control gear. 59) Do not use the control device with wet hands, in areas directly exposed to water or outdoors. 60) Do not stare at the operating light source.

This product is specifically designed and developed for domestic use in normal conditions and operation only. The lifetime mentioned on the packaging is an average only (in accordance with standards L70B50 and IEC60969 norms) and is based on an average of 3 burning hours per day. If you encounter any difficulties with the use of the product, we recommend that you first consult the user manual and the information on our website. Subject to the terms and conditions hereof, we as the manufacturer (Signify Netherlands B.V., International Business Reply Service I.B.R.S. / C.C.R.I. Numéro 10461 5600 VB Eindhoven, The Netherlands) warrant that the product is free from defects in materials and workmanship for a period of two (2) years after the date of purchase, unless a different period is stated in or on the packaging of the product and subject to maintenance of the product in accordance with the care and cleaning instructions laid down in the user manual. Unless statutory provisions of applicable law regulate otherwise, our obligations under warranty will be limited, at our option, to either repair, to provide a replacement product for the defective product or to offer an appropriate credit for the purchase price for the defective product. (De)mounting and/or (de)installation and labour costs are excluded from warranty, as well as broken glass, batteries and replaceable bulbs. Our remedies under warranty will not extend or renew the original applicable warranty period. We are entitled, at our option, to replace the defective product covered by warranty, with a product that has minor deviations in design and/or specifications which do not affect the functionality of the product. In order to be entitled to make a valid claim under this warranty, you must present to us (or our representative) on request, an adequate receipt of your purchase and the defective product for analysis. To the maximum extent permitted by applicable law, this policy sets out our entire liability as the manufacturer, in connection with defective or non-conforming products. We will not be liable to you for other losses or indirect or consequential damages (including but not limited to loss of data or loss of income), nor compensate you for activities such as regular maintenance, saving or restoring data. Your statutory rights arising from applicable law are not affected by this warranty policy. If you offer your product for service in a country other than the country where you purchased the product, we will try to have your product serviced against the warranty terms of the country where you purchased the product.
