2. 
1× USB-C Charging Cable

3. 
1× Detachable Solar Panel

4. 

User Manual

30	3.7V	2000	18650	2700K
Hours Runtime	Solar Panel	mAH Capacity	Li-ion Battery	Warm Light

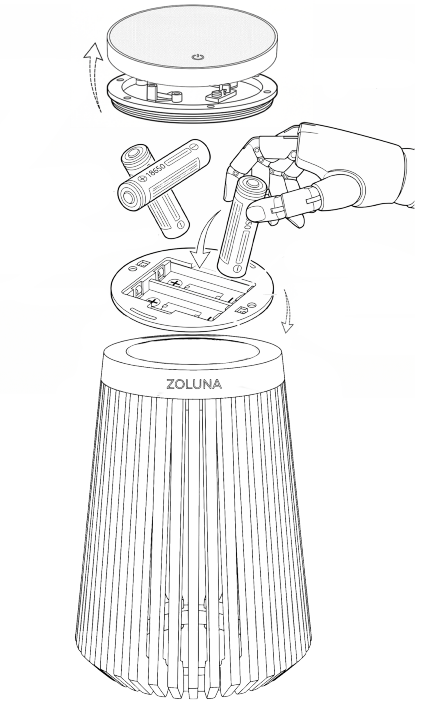

- LUCA provides reliable illumination without the need for wiring or external power sources

BATTERY REPLACEMENT

Easy Battery Replacement. Replace the 2 rechargeable 18650 batteries (1000mAh each) when performance declines to restore optimal brightness and runtime

1. Battery Type **18650** Rechargeable Lithium-Ion
2. Recharge every **2-3 months** during storage to maintain battery health.
3. Solar charging **6-8 hours** in direct sunlight
4. The battery delivers a nominal output voltage of **3.7 volts** DC

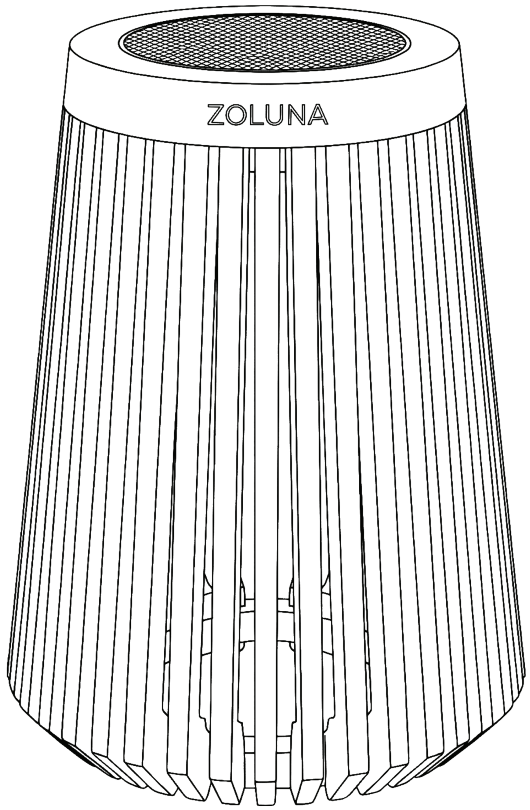

- 18 High-Efficiency SMD 2835 LEDs

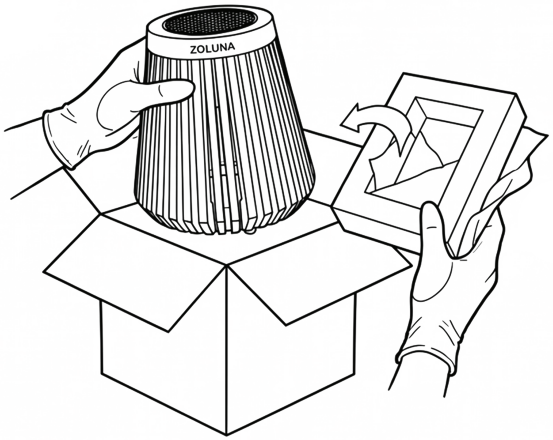

ADDITIONAL NOTES:

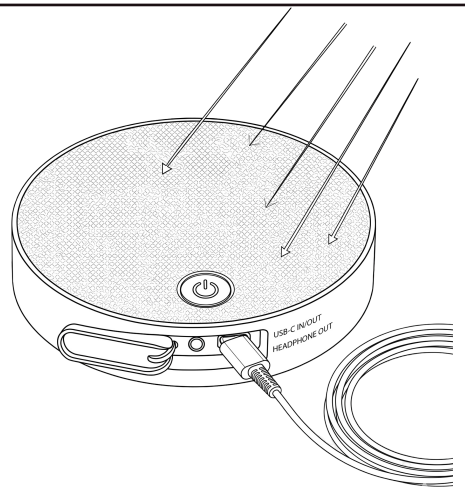

- The battery has a capacity of **2000 milliamp-hours** (mAh)
- Remove the batteries or recharge them to around **50–70%** capacity
- Battery can be recharged using a standard **USB-C** cable connected.
- For best performance, replace the batteries every **2–3 years**
- Observe the correct **positive (+)** and **negative (–)** polarity
- Replace **both batteries** at the same time
- **Lithium-ion technology** offers superior performance compared to traditional rechargeable batteries.
- Store the lamp in a **cool, dry** place during long periods of non-use

STEPS TO INSTALL

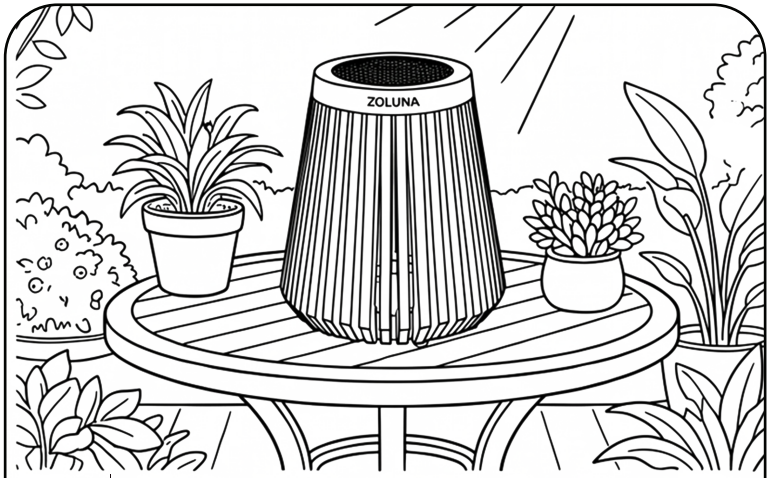

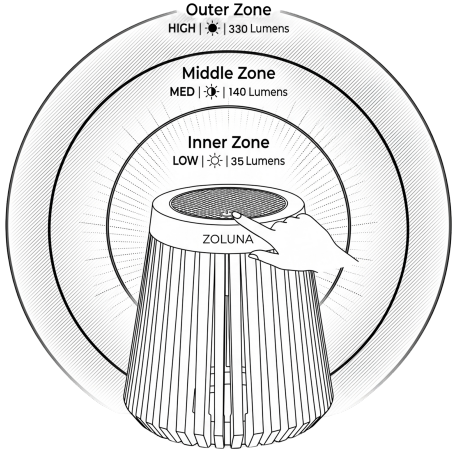

1 Remove the lamp and accessories from the packaging. Ensure all components are included and check that the lamp is free from shipping damage before use

2 For the best performance, fully charge the lamp before its first use. Place the lamp outdoors in direct sunlight for 8–10 hours, or Charge via the included USB-C cable for approximately 5 hours.

3 Ensure the solar panel on top is exposed to direct sunlight during the day for optimal charging

4 Press the power button to switch on the lamp. Press again to cycle through the three brightness levels Enjoy beautiful warm 2700K lighting with effortless solar powered operation

Elegant ambient lighting designed to transform your garden, patio, balcony, o terrace with a warm and inviting glow.

CORRECT DISPOSAL OF THIS PRODUCT:

At the end of its service life, the ZOLUNA LON L Solar Teak Light should not be disposed of with household waste. This product contains electronic components and rechargeable lithium-ion batteries that require proper recycling.

Please take the product to an authorized electronic waste (e-waste) or recycling collection facility where it can be safely processed and valuable materials can be recovered. If the batteries are removable, dispose of them separately at an approved battery recycling point in accordance with local regulations

By recycling this product responsibly, you help reduce environmental impact, conserve natural resources, and support a more sustainable future for generations to come
