

eero 7

Our most affordable Wi-Fi 7 router—a dual-band mesh Wi-Fi 7 router ideal for internet plans up to 2.5 Gbps.

eero 7 brings the speed and performance gains of Wi-Fi 7 to customers that browse, stream, study, or work at home.

TOP PRODUCT BENEFITS

Full speed ahead

Ideal for customers with multi-gig internet plans, eero 7 has two auto-sensing 2.5 GbE ports delivering wired speeds up to 2.3 Gbps, and wireless speeds up to 1.8 Gbps.

Maximum Wi-Fi 7 performance

Multi-link operation (MLO) helps reduce latency, improve speed, and improve connectivity for Wi-Fi 7 devices when MLO is enabled, even as network conditions change.

Our software makes all the difference

Our patented TrueMesh software, combined with TrueRoam and TrueChannel, proactively keeps you connected to the optimal and most reliable wifi connection possible.

Buy with confidence

eero 7 and its accessories are backed by world-class customer support and a three-year warranty.

An entry into Wi-Fi 7

Our base model Wi-Fi 7 router prepares cost-conscious customers to take full advantage of Wi-Fi 7 device performance starting today.

Plenty of performance to go around

eero 7 supports 120+ devices total, and each provides up to 2,000 sq. ft. of coverage—ideal for single-family homes, townhomes, and condos or apartments of two to three bedrooms.

Backward compatible

eero 7 is backward compatible with all previous generations of eero and compatible with eero Built-in on select Amazon Echo devices.

PACKAGING INCLUDES

1-pack: one eero 7 router, one 15W USB-C power adapter, and one CAT5e Ethernet cable.
